Continuation of Substance of Interview including description of the general nature of what was discussed: The interview was upon request of the examiner in hopes of resolving some pending interpretation issues regarding independent claim 1. The applicant explained that the "first PC card" of claim 1 is independent of the "card-adapting card for connecting a second PC card" of claim 1. The examiner had assumed that since the PC card was referred to as 'first' and 'second' that both the 'first' and 'second' were to be included in the specific embodiment of the invention. The applicant's clarification of reference numerals 21 and 23 referring to the card-adapting card and second PC card respectively allows the examiner to continue prosecution on the application. Examiner Misiura respectfully thanks Mr. Teng for taking time to conduct the interview.
